Drawing Botanicals subjects in Coloured Pencils Using a limited colour palette

Discover the art of truly seeing nature – and bringing it to life with coloured pencils.

In this workshop, you'll work from simple botanical subjects such as leaves and seasonal flowers (depending on availability), learning how to observe closely and translate what you see onto paper.

Suitable for both beginners and more experienced artists, this session introduces essential techniques using a limited colour palette.

You don't need expensive materials – a standard 12-colour pencil set is provided to achieve beautifully layered results.

What you'll learn:

- Basic colour mixing through guided exercises
- How to observe botanical subjects to uncover subtle colour variations
- Applying these skills through small, achievable sketches

Come along, slow down, and let your creativity bloom.

Saturday 25 July
10:00 – 12:00

- For beginners
- All materials provided
- Duration 2 hours
- Cost \$75
- 10 participants max
